

CELLSENSE® ULTRA WITH XACT ID™

Intelligent Detection Starts Here

CORRECTIONS

DETECTION PERFORMANCE IN A CLASS BY ITSELF

**Trying to keep up with evolving contraband threats?
Now's the time to work smarter, not harder.**

Metrasens has re-engineered its market-leading contraband detection systems to revolutionize portable screening of concealed inmate contraband. By introducing advanced, proprietary software, Metrasens now delivers even greater detection performance along with intelligence data designed to

increase its capabilities over time. Cellsense Ultra operates on the Xact ID intelligent detection platform. It features expertly designed software algorithms and machine learning — informed by data from millions of screenings — for precision detection and accurate zone alerts.

**DESIGNED TO GET
SMARTER OVER TIME**

Xact ID is the technology platform of Cellsense Ultra — one developed to further enhance screening effectiveness, efficiency, and intelligence. It will grow and its utility will increase in orchestrating detection with surveillance. As needs for detecting contraband change, so too will Cellsense Ultra. With Cellsense Ultra, the future is already in your hands.

Cellsense Plus

Cellsense Ultra with Xact ID

THE FUTURE OF CONTRABAND DETECTION. TODAY.

SECURE, ACTIONABLE DATA

- Use captured data to improve operations
- Remote management and integration via API
- Event logging and operational statistics

UNIFORM DETECTION

- Enhanced sensor design and performance
- Increased detection sensitivity
- Consistent detection throughout the entire detection area from head-to-toe

NOISE FILTERING FLEXIBILITY

- Digital mitigation of non-contraband interference in noisy areas
- Improved deployment flexibility to more locations in/around the facility
- Greater operational efficiency to set up and screen without delay

5-ZONE LED-LIGHTED PRECISION

- Lighted indicators at the height level of the contraband item
- Improves secondary screening efficiency
- Zone indication without compromise to detection performance

SIMPLE, RUGGED INTERFACE

- Fast, simple setup
- Intuitive design
- Ruggedized screen prevents accidental or intended damage
- Easy to use
